

Ireland's best fishing holidays

● in the SHANNON REGION ●

The Shannon Region Angling Holidays Group welcomes you on their web site of which the purpose is to promote the Shannon Region and particularly the Angling Centres of the members of this group.

In October 2009 the group decided to go online and the results are visible on this highly informative website.

All members and collaborators forming the group are involved directly in angling activities throughout the four counties in this region.

Across the Shannon Region they offer a wide choice of excellent angling services with accommodation and full supporting services, each with their own specialty and located in the loveliest parts of the countryside.

Throughout this first web year, the group received a lot of queries from B & Bs and restaurants to advertise on the website.

During the latest meeting, the group has decided to create a page for advertisers.

If you are interested to advertise your premises on this website and if you would like to receive more information, please answer this message with the details of your business and a link to your website (if available).

A publicity insert can be viewed on the following link: [publicity restaurants](#)

Thank you for your attention.

With Kind Regards

Willeke Ansink
